

# Sheeba Siddiqui

Senior Frontend Developer (React | Next.js | AI-Powered UI)

Dubai, UAE | +971 58 2123 124 | Sheeba2311@gmail.com | [linkedin.com/in/sheeba-ui-developer/](https://linkedin.com/in/sheeba-ui-developer/)

## PROFESSIONAL SUMMARY

Senior Frontend Developer with 8+ years of experience building scalable, high-performance web applications across fintech, enterprise, and product-driven environments. Strong expertise in React, Next.js (App Router), JavaScript, and modern UI architecture. Recently upskilled in AI-assisted and agent-based frontend workflows, enabling faster development, cleaner code, and improved developer productivity. Returning to full-time roles after a planned career break for maternity and health recovery.

## CORE SKILLS

- React.js, Next.js (App Router), Angular, Vue.js
- JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS, Tailwind CSS, Bootstrap
- Server Actions, REST APIs, WebSockets
- AI-assisted development, OpenAI APIs, Agentic UI workflows
- Performance optimization, reusable component architecture
- Charts & Data Visualization (Chart.js, ApexCharts, amCharts, Highcharts)
- Git, VS Code, WebStorm, Agile/Scrum

## PROFESSIONAL EXPERIENCE

### Senior Frontend Developer — Multibank Group, Dubai, UAE

June 2020 – April 2024

- Developed responsive, high-performance web applications using React, Next.js, Vue.js, and modern JavaScript.
- Translated Figma and Adobe XD designs into pixel-perfect, reusable UI components.
- Implemented real-time features using REST APIs and WebSockets.
- Integrated charts and data visualizations using ApexCharts, amCharts, and Chart.js.
- Optimized page performance and improved Core Web Vitals.
- Collaborated with backend, product, and QA teams in an Agile environment.

### Frontend Developer — Strategic Holding, Dubai, UAE

October 2019 – May 2020

- Converted PSD and design mockups into responsive, cross-browser compatible web pages.
- Built UI components using HTML5, CSS, JavaScript, and Angular 8.
- Performed unit, functional, and integration testing across devices.

### **Associate Consultant – UI Developer — Capgemini Technology Services, India**

October 2018 – July 2019

- Built interactive enterprise UI using Angular 7, HTML5, and CSS.
- Consumed APIs and visualized data using Highcharts.
- Worked on GE Atlas and Workday Client internal applications.

### **Web Developer — Mastertech Web Applications, Mumbai, India**

January 2017 – July 2018

- Developed and maintained WordPress websites for multiple clients.
- Created UI features using HTML, CSS, Bootstrap, and JavaScript.
- Managed SSL installations and ongoing website maintenance.

### **Junior Programmer — Ugam Solutions Pvt. Ltd., Mumbai, India**

January 2014 – March 2015

- Worked on survey programming and analytics solutions for Ipsos.
- Performed unit and black-box testing to ensure data accuracy.
- Built an AngularJS dashboard for respondent data tracking.
